

54th Annual Meeting

June 28–July 2, 2014

Eastside of Seattle
Hyatt Regency Bellevue

Bellevue
WASHINGTON

Pushing the Boundaries of Birth Defects Research

President:

Elaine Z. Francis

Program Chair:

Mary Alice Smith

Education Courses:

Frontiers in Developmental Biology

Mechanisms of Abnormal Embryonic Development

Sunrise Mini Course: Applications of Computational Biology in the Study of Birth Defects

Workshop:

Student and Postdoctoral Workshop: Building a Successful Career in Developmental and Reproductive Toxicology

Symposia:

ILSI HESI Symposium: Cross-Industry Data Survey of the Value of Rabbit Developmental Toxicity Data in the Risk Assessment for Pharmaceuticals

TS/NBTS Joint Symposium: National Children's Study

March of Dimes Symposium: Advances in Early Diagnosis of Birth Defects and Adverse Perinatal Outcomes

TS/NBTS Joint Symposium: Epigenetics

Testicular Dysgenesis Syndrome Symposium

Grant Officers Symposium

Wiley-Blackwell Symposium: From Fleas to Fish and Beyond: Advances in Alternative Assays to Predict Developmental Toxicity

Public Affairs Committee Symposium: Thrombosis during Pregnancy: Risks, Prevention, and Treatment for Mother and Fetus
